## **Company Information**

# Company specialized in Production, Analysis and Research of Standard Materials

RIGAS Co., Ltd. has the capability to manufacture and analyze various specifications of liquid and gas standard materials and supplies products in which customers can trust by application of our unique special cylinder inner-surface treatment technology essential for improving stability of low concentration reactive gases.

Our company also manufactures all standard gases in gravimetric method using high precision high capacity scale and guarantees the accuracy for the concentration of every components by quantifying and verifying it with various gas analyzers.

#### **CRM Production Agency**

RIGAS Co., Ltd. has been recognized the Reference Material Producer that complies with KS A ISO 17034 standards by the Korea Laboratory Accreditation Scheme (KOLAS), an organization of the Ministry of Trade, Industry and Energy. We have 79 Certified Reference Materials (CRM) based on KOLAS reliability.

#### Authorized Standard Gas Testing and Certification Agency in ROK

RIGAS Co., Ltd. has been appointed as a government-authorized standard gas testing and certification agency from Korea National Institute of Environmental Research and performs testing and analysis for gaseous standard materials. (Standard gas for calibrating continuous automatic chimney exhaust gas measuring instrument and continuous automatic air measuring instrument)

#### Company having Corporate-affiliated Research Institute

RIGAS Co., Ltd. established Research Institute of Gas Analytical Science in 1999 on the basis of Korea Basic Research Promotion and Technology Development Supporting Act, and has performed gas analysis research actively for development of new products such as undeveloped special gases and improvement of accuracy of gas analysis.

## **Company Information**

#### Company History

Dec 2021. Developing and supplying HF gas CRM in accordance with ISO 17034, KOLAS

Sep 2020. Relocating the headquater

Aug 2019. Selected as a smart factory support business (advancement)

Mar 2019. Accredited as the Reference Material Producer in accordance with ISO 17034, KOLAS

**Jun 2018.** Registered an International TradeMark (KR-2018-0000651)

Jul 2017. Accredited as a testing agency in accordance with ISO 17025, KOLAS

Feb 2017. Expansion of the 2nd plant in Daedeok Industrial Zone

Dec 2016. Obtained Clean mark as TOP3 of Reducing Exposure level

Jan 2014. Obtained Certificate of Good Workplace by Risk Assessment (Korea Occupational Safety & Health Agency)

Mar 2013. Selected as a hidden champion (Ministry of Employment and Labor)

Jun 2007. Obtained INNO-BIZ Certificate (Small & Medium Business Administration)

Jun 2007. Approved as Company of Daedeok Special R&D Zone (Ministry of Science and Technology)

Apr 2002. Appointed as Clean Workplace (Korea Occupational Safety & Health Agency)

Sep 2001. Appointed as Standard Gas Testing Agency by Environmental Technology Development Act (Korea National Institute of Environmental Research)

Mar 1999. Obtained Certificated of Gas Analysis and Science Research Institute as Corporate-affiliated Research Institute (Korea Industrial Technology Association)

Sep 1998. Established a corporation in Daejeon, Korea.

## rigas I PAS Pre Analysis System

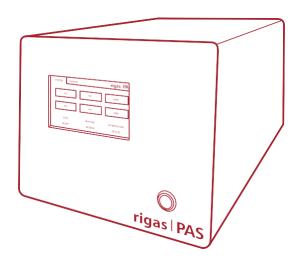

Pre Analysis System (PAS), a cleaning system that removes corrosive and adsorbent substances within sample introduction parts and equipment before/after analysis.

#### **Special features**

- Reduces analysis time: Rapidly removes previously analyzed components
- Reduces maintenance cost of analysis equipment: Removes air and moisture from systems before use
- Improves analysis accuracy: Delivers accurate analysis values by reducing effects of reactive/adsorbent components.
- Easy to use : Simple touch display

#### When to use

- Frequent system corrosion
- When using different types of gas
- If accurate analysis values are required
- In laboratory settings where equipment management is important

#### **Specification**

Size (H×W×D)	18 cm×22 cm×35 cm	Display	4.3 inch
